

Special Issue

Advanced Research on Biotechnology and Its Application in Food and Other Industries

Message from the Guest Editor

We are pleased to launch a new Special Issue focusing on recent developments in the field of biotechnology and its application in the food as well as other industries. The focus of this Special Issue is to collect submissions addressing the challenges that production faces, focusing on the novel ways that will make industries more sustainable and friendlier to the environment. In this Special Issue, original research and review articles as well as case studies are welcome. Research areas may include (but are not limited to) the following:

- Environmental impact
- Biotechnology
- Food production
- Sustainable production
- Sustainability
- Waste management
- Waste valorization

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
