

Special Issue

Green Infrastructure in Suburban Settings: Risk and Reward

Message from the Guest Editors

This Special Issue focuses on achieving sustainability and management of risk satisfactorily in suburban areas of cities. Papers are invited from the full spectrum of businesses and authorities associated with suburban housing and planning. In this Special Issue, original research articles and reviews are welcome which address the issues of sustainability and risk. Areas may include (but are not limited to) the following:

- Water sensitive urban design;
- Stormwater harvesting;
- Water balance in expansive soil/subgrade;
- Design of footings for houses given current constraints and demands;
- The water use of trees in suburban settings;
- Rain gardens, implementation and maintenance;
- Sustainable construction materials for housing;
- Life cycle assessment.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
