

## Special Issue

# Sustainable Development and Recycling of Rare Earth Resources

### Message from the Guest Editor

Sustainability leads the society in developing stages. It mainly is subject to on society, environment and economy. East Asian countries such as Korea, Japan, Singapore etc having very limited natural resources of rare earths (REs); Recycling subject concern the waste minimization, environmental/economic incentives, energy considerations and industrial ecology. Keywords

- Recovery
- Recycling
- Extraction
- Separation
- Rare earths
- Secondary resources
- e-Waste
- Urban mining
- Waste management
- Environmental management

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
