# The Remediation and Requalification of Contaminated Sites

# Message from the Guest Editors

Dear colleagues, The remediation, restoration, and requalification of contaminated sites is a current and constantly evolving matter. It is one of the most important environmental issues in different countries where the economic value of a site is in question. The relevance of an environmental point of view comes also from the fact that the problem involves different components (generally soil and groundwaters) that are polluted by the most different contaminants, improving the difficulty level and the need for different technologies. Different remediation approaches can be chosen, according to the conceptual model of the site, and the spatial extension of pollution, considering the health environmental risk analysis. For further reading, please visit the Special Issue Website.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
