

Special Issue

Renewable Energy – Issues and Key Solutions for Sustainable Development

Message from the Guest Editors

Fossil fuels (coal, oil and gas) are non-renewable resources, and when burned to produce energy they cause harmful greenhouse gas emissions and air pollution. The storage capacity and scarcity of fossil fuels also cause major issues for the generation of electrical power for commercial and domestic power supply demand. All of these important issues force us to explore renewable energy sources. The goal of this Special Issue is to look at and share recent advances in theory, design, modeling, application, control, environmental issues, future energy policy transitions, reviews, and case studies related to the advancement of power generation systems based on renewable energy sources as well as analysis under climatic conditions for finding sustainable solutions.

Guest Editors

Dr. Rupendra Kumar Pachauri

Prof. Dr. Rajasekar Natarajan

Dr. Yogesh K. Chauhan

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
