Special Issue

Sustainability in Renewable Energy and Hybrid Systems

Message from the Guest Editor

This Special Issue aims to present a collection of research work that resolves the significant barriers around the design, control, optimization, and energy storage technology of hybrid energy systems from a practical implementation perspective. Themes include but are not limited to:

- Hybrid systems
- Design
- Optimization
- Economic assessment
- Energy storage
- Dynamic simulation
- Renewable energy
- Process Control

Keywords

- renewable energy
- hybrid systems
- energy storage
- solar energy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
