

## Special Issue

# Renewable Energy and Sustainable Economy Transition

### Message from the Guest Editors

The Special Issue of *Sustainability* titled “Renewable Energy and Sustainable Economy Transition” will look into the following topics:

- Studies comparing global or regional situation and/or evolution related to renewable energy consumption and production
- Energy policy measures undertaken in regions, countries, or local zones to promote renewable energy, in particular those that promote a circular economy
- Sectoral measures undertaken in regions, countries, or local zones to promote renewable energy, in particular those that promote a circular economy
- Renewable energy, economic growth, and sustainability/emissions: reviews and new studies
- Renewable energy sources and economic growth
- Transition to renewable energy and its impact on the economy
- Renewable energy use in essential sectors for world economic growth
- Transition to 30%, 50%, and 100% renewable energy: targets, forecasts, portfolios, etc.
- Economic sector growth thanks to renewable energy development
- Studies focusing on the negative impact that renewable energy could have on the economy
- Other related topic or studies

### Guest Editors

Prof. Dr. María Del P. Pablo-Romero

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
