

Special Issue

Renewable Energy and Sustainable Economy Transition

Message from the Guest Editors

The Special Issue of *Sustainability* titled “Renewable Energy and Sustainable Economy Transition” will look into the following topics:

- Studies comparing global or regional situation and/or evolution related to renewable energy consumption and production
- Energy policy measures undertaken in regions, countries, or local zones to promote renewable energy, in particular those that promote a circular economy
- Sectoral measures undertaken in regions, countries, or local zones to promote renewable energy, in particular those that promote a circular economy
- Renewable energy, economic growth, and sustainability/emissions: reviews and new studies
- Renewable energy sources and economic growth
- Transition to renewable energy and its impact on the economy
- Renewable energy use in essential sectors for world economic growth
- Transition to 30%, 50%, and 100% renewable energy: targets, forecasts, portfolios, etc.
- Economic sector growth thanks to renewable energy development
- Studies focusing on the negative impact that renewable energy could have on the economy
- Other related topic or studies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
