

Special Issue

A Research Agenda for Ecological Economics

Message from the Guest Editors

The goal of this Special Issue is to solicit recommendations for a research agenda from established experts in the field, and perhaps more importantly, from the coming generation of ecological economists who will be tasked with its implementation. For your submission, we ask that you:

- Consider and remember the roots of EE through Daly and Farley's "call for a return to the beginnings of economics as a moral philosophy explicitly directed toward raising the quality of life of this and future generations".
- Co-author papers with students, emerging scholars, and those with whom you have significant cross-over. If we receive abstracts with significant cross-over, we may ask the authors to write a collaborative paper.
- Clearly identify the debate, discourse, or research agendas that you deem important and valuable for the future of EE.
- Consider sketching the outlines of a doctoral thesis built on your proposed agenda, which would potentially increase your article's usefulness to the next generation of ecological economists and hence its impact.

Guest Editors

Prof. Dr. Josh Farley

College of Agriculture and Life Sciences, The University of Vermont,
Burlington, VT 05405, USA

Dr. Katie Kish

McGill University, Montreal, QC, Canada

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
