

## Special Issue

# Resilient Building Retrofits to Meet the Climate Emergency

### Message from the Guest Editors

This Special Issue covers why and how the improvement of buildings requires a complex, holistic approach that brings all stakeholders together with respect and understanding. Yet our time frame for effective action is limited. If our experience of the last 30 plus years is anything to go by, progress is possible, but much more effective action is essential. This Special Issue identifies and analyzes some of what must be done, explores how it could be achieved, and sets out actions for stakeholders: from policy makers, to educationalists, designers, constructors, investors, funders and occupiers. Bringing authors from across various disciplines, our purpose is to stimulate dialogue and debate within policy, practice, and education circles which lead to effective and timely change.

### Guest Editors

Prof. Dr. Sara Jane Wilkinson

Dr. Hilde Remøy

Prof. Dr. Sarah Sayce

### Deadline for manuscript submissions

closed (31 October 2020)

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
