

Topical Collection

Designing More Diverse and Resilient Food Systems for the Future

Message from the Collection Editors

The Topical Collection aims to include both empirical research articles and conceptual pieces covering (but not limited to) all stages of the agri-food system, from production to distribution, marketing and consumption, that may contribute to the transition towards a more diverse and resilient food system. Keywords

- food system
- supply chain
- agrobiodiversity
- sustainable consumption
- ecosystem services
- circular economy
- bioeconomy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
