

Special Issue

Sustainability Issues in Road Construction and Use

Message from the Guest Editor

The Special Issue, entitled “Sustainability Issues in Road Construction and Use”, involves all activities from cradle to grave of a road infrastructure: models to assess atmosphere emissions and identify low-impact techniques; strategies to manage the traffic demand for a given service level; studies on innovative, “green” materials; procedures, laboratory, and in situ tests to use secondary raw materials in road construction; procedures to increase passengers’ and workers’ safety; technologies to prevent and minimize the mechanical, social, and economical consequences of accidents; technology challenges for energy efficiency of vehicles; and all analyses aimed at pursuing sustainable development challenges. This Special Issue addresses the most important topics in these very frontiers and the way they could be implemented.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
