

Special Issue

Sustainable Tourism: Climate Change Effect on Tourist Behaviour

Message from the Guest Editors

The urgency of addressing climate change and its far-reaching impacts is more pressing than ever. Within the context of tourism, climate change is not only altering environmental conditions but also significantly influencing tourist behavior. This special issue of "Sustainability" aims to delve into the intricate relationships between climate change and tourism, exploring how shifts in climate are driving changes in tourists' choices, behaviors, and destinations.

- Focus: This issue will concentrate on the influence of climate change on tourist behavior, encompassing both immediate and long-term effects.
- Scope: The scope includes empirical and theoretical studies on behavioral adaptations, sustainable tourism practices, and the socio-economic impacts of climate-induced changes in tourism.
- Purpose: The purpose is to provide a comprehensive understanding of how climate change is reshaping the tourism industry and to identify strategies for promoting sustainable tourism in the face of these changes.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
