

## Special Issue

# SDG 6: Challenges and Solutions for Drinking Water Quality

### Message from the Guest Editors

This Special Issue promotes an interdisciplinary approach, combining scientific research results, innovative engineering solutions, and the analysis of water quality management policies. We invite researchers to contribute original research and critical reviews on new research methods, technologies, and strategies for ensuring safe and high-quality drinking water. We invite work on topics related (but not limited) to the following:

- Secondary pollution of treated water;
- Assessment of emerging contaminants in drinking water and their potential health risks;
- Innovative approaches to ensuring microbiological safety and preventing biofilm formation in water systems;
- Advances in water treatment technologies and sustainable purification methods;
- Water quality in the context of sustainable development and circular economies.

We are pleased to invite you to our Special Issue "SDG 6: Challenges and Solutions for Drinking Water Quality", and we look forward to reading your work.

---

### Guest Editors

Dr. Monika Zdeb

Department of Water Purification and Protection, Faculty of Civil, Environmental Engineering and Architecture, Rzeszow University of Technology, 35-959 Rzeszow, Poland

Dr. Andżelika Domoń

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
