

Special Issue

Sustainable Urban Understanding and Planning: Principle and Application of Earth Observation and Geoinformation

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Foundation model for Earth observation;
- Geospatial data analysis frameworks for sustainable urban planning;
- Remote-sensing-supported land use and land cover (LULC) monitoring;
- Machine-learning-assisted urban growth modeling and simulation;
- Earth observation and GIS technologies for daily environmental monitoring;
- Data-driven approaches to urban resilience and climate adaptation;
- Remote sensing and spatial analysis for ecosystem health and biodiversity assessment;
- Socioeconomic and environmental impact assessments using geospatial data;
- AI-enhanced geoinformation systems for optimizing resource management in urban environments.

Guest Editors

Dr. Da He

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
