

Special Issue

Sustainable Business and Developing Collaborative Interorganizational Relationships

Message from the Guest Editors

A Special Issue will be prepared with the theme Sustainable Business and Developing Collaborative Interorganizational Relationships. We invite papers that focus on the interorganizational relationships of multi-stakeholder initiatives involving private, public organizations and non-profit organizations, that aim to address societal and environmental problems. Themes can be: - What makes these collaborative initiatives successful from a relational point of view; - What are the organizational and relational dynamics when working in such partnerships where a diversity of interests, identities and perspectives is prevalent; - What entails adequate governance of these initiatives and what are the challenges thereof; - What are important factors in creating and developing such collaborative initiatives (e.g. how to engage stakeholders; how to intervene so as to develop collaboration; how to develop collaborative skills; - What are critical perspectives on such collaborative multi-stakeholder initiatives.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
