

## Special Issue

# Towards the Sustainable Development Goals: Monitoring, Assessment and Management of Eco-Environmental Space

### Message from the Guest Editors

Eco-environmental sustainability development is the foundation of sustainable development. In recent years, the rapid development of theory and technology in quantitative, spatio-temporal and multi-dimensional aspects, as well as other aspects, has made it possible to attempt rapid dynamic monitoring and systematic assessment and provide management decision support for eco-environmental space. Although a few attempts have been reported, effective and systematic research into all kinds of ecosystems towards SDGs remains scarce. Therefore, the aim of this Special Issue is to collect articles (original research papers, review articles and case studies) that will provide insight, theory, and technology regarding the monitoring, assessment and management of eco-environment space towards the SDGs, which involves innovative research, modeling, decision making, empirical studies and case studies in this research area.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
