

Special Issue

Climate Change and Regional Sustainable Development

Message from the Guest Editors

This Special Issue will focus on climate effects on water cycles and land surface processes, the sustainability of water resources, the regional water–food–carbon nexus, identifying and optimizing the carbon peak pathways, allocating and trading carbon emission rights, climate action and sustainable development goals, climate and environmental governance systems, and other content providing decision-making references for actively addressing climate change, environmental pollution, and achieving sustainable development. Core content:

- Climate change and water cycles.
- Climate change and land surface processes.
- Climate change and the sustainable development goals.
- Climate governance system.
- Sustainability of water use and water conservation policies.
- Management and optimal allocation of regional water resources.
- The regional water–food–carbon nexus.
- Identification and optimization of carbon peak paths.
- Carbon emission rights allocation and trading.
- Regional sustainable development policies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
