Sustainable Development in Small and Medium-sized Enterprises

Message from the Guest Editors

Regionality is becoming a key factor in the current debate evolving around sufficiency: In order to be able to cope with global issues like climate change, large resource consumption, migration waves, social inequalities, and many more, regional solutions provided by small and medium-sized enterprises (SMEs) are called on alongside global ones. These solutions must include the requirements for a post-fossil future through environmental, climate, and resource conservation as well as the prospects for a fair and worthwhile individual and societal development in a late (or post-)growth society.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
