

Special Issue

Sustainable Solutions for Improving Safety and Security at Crossroads, Junctions and Level-Crossings

Message from the Guest Editors

The objective of this Special Issue is to explore the current policies and practice and potential solutions of safety and security at crossroads, junctions, and level crossings. We look for scientific contributions and quality papers describing sustainable operation management systems that guarantee safety and security at crossroads, junctions, and level crossings. We also look for papers demonstrating new ways of managing crossroads, junctions, and level crossings. We seek new concepts, including artificial intelligence, virtual reality automation, etc., which have already demonstrated their potential for possible improvements. Papers focusing on the implementation of new technologies, such as automated obstacle detection to improve safety and efficiency and reduce operating costs at crossroads, junctions, and level crossings are welcome...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
