

Special Issue

The Interface between Sustainable Supply Chain Management (SSCM) and Smart City

Message from the Guest Editor

This Special Issue aims to broaden the discussion on the interrelationships between sustainable supply chain management and smart cities and invites articles on the following areas: - The reciprocal relationships between SSCM and smart cities; - Sustainable SCM opportunities in smart cities; - Overlapping strategies applicable in SSCM opportunities in smart cities; - Literature review on the linkages between SSCM and any components of smart cities; - Any other topics that link smart city to the domain of sustainable supply chain management. All research methods are accepted as long as it is able to address the aforementioned research areas

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
