Sustainable Urban Agriculture

Message from the Guest Editors

This Special Issue on “Sustainable Urban Agriculture” will group together contributions describing state-of-the-art experiences and researches associated with urban agriculture (UA) sustainability. Submitted papers should address one or more of the following questions:

- (1) Which cropping systems are best suited to urban conditions?
- (2) How healthy agricultural goods can be produced in urban environments?
- (3) Which technologies can be adapted or developed to boost UA performances?
- (4) How can UA reduce city environmental footprint?

Papers selected for this Special Issue will undergo a rigorous peer review procedure with the aim of rapidly and widely disseminating innovative research results and successful experiences.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
