

Special Issue

Business Digital Transformation Processes toward Circular Economy and Sustainability: 2nd Edition

Message from the Guest Editors

This Special Issue aims to contribute to push forward the sustainability, through intra- and inter-organizational business process transformation, namely optimization, circularization, or, simply, digitalization, allowing traceability and promoting transparency through the value chains. In particular, this Special Issue should cover, but is not limited to, the following topics:

- Business process redesign toward greater social and environmental sustainability;
- Business process redesign toward circular economy and traceability;
- Digitalization and integration of business processes;
- Traceability in value and supply chains promoting transparency and social and environmental sustainability;
- Circular economy promoting sustainability at any business sector (textile and clothing industry, car industry, building, energy, agriculture, food supply chains, marketing, etc.);
- Using emerging technologies (e.g., IoT, Blockchain) for traceability and the circular economy;
- Using gamification techniques for engaging the final consumer into the circular economy.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
