

Special Issue

Selected Papers on Sustainable Water Resources Management from the 2017 and 2018 International SWAT (Soil and Water Assessment Tool) Conference

Message from the Guest Editors

Sustainability is an international multi-disciplinary peer-reviewed open access journal on environmental, cultural, economic and social sustainability of human lifestyles. The Soil and Water Assessment Tool (SWAT) is one of the best biophysical modeling tools. It has the capability of simulating hydrology, soil erosion, pollutant transport, and crop growth. There were three international SWAT conferences in India, Malaysia, and Poland, where critical sustainability issues were discussed. *Sustainability* is planning to publish a Special Issue based on papers presented in these conferences. We are inviting papers that have a high quality and align with the scope of the journal for submission. Papers outside of the conference will also be accepted for submission. The scope of the Special Issue may include:

- Sustainable water and resources management for building social-ecological resilience,
- Impact of land use/land cover change and climate change,
- Improving modeling approaches for sustainable water and land management,
- Balancing economics and nature, and
- Integrated water management through green-blue water paradigm.

Guest Editors

Prof. Dr. Raghavan Srinivasan

Dr. Yihun Dile

Prof. Dr. Shashidhar Thatikonda

Prof. Dr. Tasuku Kato

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
