

Special Issue

Safety Role and Contribution to Industrial Sustainability

Message from the Guest Editors

Over the last few years, many leading companies have started considering sustainability as a key part of their business strategy. Although the three dimensions of sustainability—economic, environmental, and social—should be considered in an integrated way, companies tend to approach each aspect separately. The focus on a single aspect of sustainability can lead to unintended negative impacts on the other aspects or create conflicts between goals. In addition, so far, the issues included in the social sphere of sustainability, and particularly Occupational Safety and Health (OSH), have been disregarded and often left out of current sustainability discussions (OSHA, 2016). However, workers' safety, health, and well-being are essential elements of any sustainability effort.

The objective of this Special Issue is to contribute to sustainable development by promoting research investigating the potential contribution of Occupational Safety and Health to industrial sustainability, with respect to each of its three dimensions (economic, environmental, social).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
