## **Special Issue**

# Sustainability and Security of Food Packaging

## Message from the Guest Editor

The sustainability and security of food packaging (SSFP) have assumed a very high importance in recent years due to both the increased knowledge and attention to climate change and to ensure freshness and quality of food without the risk of spreading the pandemic virus of COVID-19. In this frame, this Special Issue on SSFP aim to focus on research and development of new innovative products, processes, and technologie. For example, following the trend started with Horizon 2020, papers could address new smart eco-friendly material, refillable parent packaging and/or edible packaging options to improve food packaging sustainability and secure its circularity, while minimizing food waste. As a consequence, furthermore, we aim to bring in new important consideration on food and environment regarding their health, preservation and security, which could contribute to making the already high resources committed by numerous brands in research even more productive.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
