

Special Issue

Self-Employment Sustainability: Exploring the Long-Term Survival

Message from the Guest Editors

This Special Issue will comprise a selection of papers presenting original contributions to the analysis of entry and post-entry dynamics and the study of the determinants of self-employment survival, and policy evaluation cases. In this respect we will be interested not only in traditional entrepreneurship policies evaluations Long-run effects are not accurately captured by conventional evaluations, which are usually performed a few years after the policies are implemented, and so capture only short-term impacts, but also in their long-run effects. Papers selected for this Special Issue will be subject to a rigorous peer-review process with the aim of rapid and wide dissemination of research results, developments, and applications

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
