

## Special Issue

# Sustainability in Sensory Analysis and New Food Product Development

### Message from the Guest Editor

Over the past decades, sustainability gained more and more space in food sciences and therefore in food sensory analysis and product development, too. In order to feed the ever-growing population of planet Earth, not only new food ingredients must be developed but new, greener food technologies, raw materials, sensory testing methods and deeper understanding of consumer minds regarding innovations are needed. This Special Issue will comprise a selection of papers presenting original and innovative contributions to the sustainability in sensory analysis and new food product development in areas related to new food ingredients, greener food technologies, raw materials, sensory testing methods and deeper understanding of consumer minds regarding innovations in food sciences that will contribute to a more sustainable future of food industry.

### Guest Editor

Dr. Attila Gere

Faculty of Food Science, Institute of Food Technology, Department of Postharvest Science, Trade and Sensory Evaluation, Szent István University, H-1118 Budapest, Hungary

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
