Special Issue

Sharing Economy and Its Role in Fostering Sustainability: How Trust and Regulation Shape Relations of Providers and Consumers

Message from the Guest Editors

This Special Issue aims to explore and explain how, why, and when a sustainable lifestyle is adopted and participation in the sharing economy becomes key. It further shows how this affects businesses, platforms, and consumers by following an interdisciplinary approach. The Special Issue will provide deeper insights for businesses, legislators and researchers how to design and regulate the sharing economy. These aims will be met by calling for both conceptual and empirical research on either of these concepts and encouraging meta-analysis or systematic literature reviews.

Specifically, we look for contributions regarding:

- Relationship between sustainability and sharing economy: resource efficiency and waste reduction
- Building of consumer communities engaging in the sharing economy with the aim to foster sustainability
- Challenges for organizations in the sharing economy with regard to trust building and regulation
- The design of sustainable virtual environments as market place of sharing economy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
