Special Issue

Sheltering and Housing Displaced Populations

Message from the Guest Editors

This Special Issue seeks contributions focusing on sheltering and housing in post-disaster settlements. We seek contributions that bridge the humanitariandevelopment nexus, from pre-disaster resiliency to emergency and temporary shelter, to the long-term development of sustainable housing and settlements. We are interested in contributions which unpack issues of sheltering and housing accessibility, affordability, safety, sustainability, and the associated environmental, social, and economic issues facing displaced populations. We also seek manuscripts which analyze the intersection of built infrastructure systems in postdisaster settlements, such as water, sanitation, power, drainage, and transportation. Contextually, we welcome manuscripts that address response to all types of disasters and conflict. Papers selected for this Special Issue will be subject to a rigorous peer-review process with the aim of the rapid and wide dissemination of research results, developments, and applications, and

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
