

## Special Issue

# Shrinking Cities—Testing Ground for Sustainability

### Message from the Guest Editors

This Special Issue will focus on how the fate of shrinking cities depends on the way in which local, regional and national governance tackle the issue, with a particular focus on sustainability. We present a wide range of approaches to exploring and evidencing these questions, including case studies all over the world, embracing both quantitative and qualitative empirical research, as well as original contributions in the field of urban theory.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
