

Special Issue

Smart Renewable Hybrid Energy Systems and Near Zero Energy Districts for Sustainable Urban Development

Message from the Guest Editors

This Special Issue will comprise a selection of papers addressing the modelling of zero energy districts (nZEDs) for the energy, economic, and environmental analysis of sustainable urban development.

Municipalities play a key role in the achievement of the international energy and climate aims. To date, most of the literature has regarded net-zero energy buildings (nZEBs).

This Special Issue has the ambition to propose innovative solutions for social housing districts, where the limited access to energy resources represents a critical condition to guarantee enough comfort to anyone.

Guest Editors

Dr. Domenico Mazzeo

Prof. Dr. Giuseppe Oliveti

Dr. Nicoletta Matera

Dr. Cristina Baglivo

Dr. Paolo Maria Congedo

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
