

Special Issue

Smart Technologies for Sustainable Urban and Regional Development

Message from the Guest Editors

This Special Issue invites papers proposing systematic approaches towards the development of smart digital technologies for the conception, innovation, design, and operation of systems for sustainable urban and regional development. The submissions can be research papers, case reports, viewpoints, or literature reviews. We welcome manuscripts that contribute to policy, strategy, legislation, process, or infrastructure development or their interfaces. The intention of this approach is to invite submissions that will enable us to develop a holistic overview such that different communities working in policy and infrastructure research can establish a dialogue and understand the cross-disciplinary issues and collaboratively devise holistic and globally optimum solutions for sustainable development.

Guest Editors

Prof. Dr. Rashid Mehmood
Prof. Dr. Tan Yigitcanlar
Prof. Dr. Juan M. Corchado

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
