

Special Issue

Sustainability in Water Supply and Smart Water Systems

Message from the Guest Editors

This Special Issue calls for papers to disseminate and share findings on the sustainable and smart solutions for water systems above described. Critical reviews are also invited. The objective of this Special Issue is to gather contributions on advancing scientific and technical methodologies, technologies, best practices and regulations, exploring alternative solutions for making water systems sustainable and smart. Only if system dynamics are better understood will it be possible to provide more insights for a more sustainable and smart water system design and management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
