

Special Issue

Sustainable Social Enterprises Governance and Management

Message from the Guest Editors

This Special Issue seeks to improve the understanding of the sustainable development of SEs and resilience to crisis, by focusing on the two fundamental organizational dimensions of governance and management. The rationale of our argument rests with the fact that the necessity for SEs to meet the triple bottom line of economic, social, and environmental sustainability can mould organizational processes, formal and informal coordination mechanisms, managerial competencies, training, style, and choices.

The Special Issue welcomes both theoretical contributions and empirical analysis (both qualitative and quantitative) dealing with the enlarged governance mechanisms of and managerial approaches to SEs as key actors in social, economic, and environmental sustainability. It also welcomes contributions that show how these specific governance solutions and managerial mechanisms could contribute to sustainability transitions in different economic sectors. We seek treatment of those mechanisms and approaches, which promise or have been shown to deliver sustainable outcomes and resilience to crisis, referring also to the post-pandemic economic crisis that we are witnessing.

Guest Editors

Prof. Dr. Ermanno C. Tortia

Prof. Dr. Florence Degavre

Dr. Mónica Gago García

Dr. Simone Poledrini

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
