

Special Issue

Social Network Analysis for Logistics and Supply Chain Management

Message from the Guest Editors

This Special Issue welcomes both conceptual and empirical contributions on the social network analysis tools applied to supply chains to provide novel perspectives on SCM and solve SCM problems. Authors from different disciplines such as business, management, economics, and other related disciplines are invited to submit their papers. Multidisciplinary research that embraces the diversity of supply chain perspectives is appreciated. Submissions could relate but are not limited to social network analysis applied to the following topics:

- Procurement management;
- Demand forecasting and stock management;
- Collaboration and coordination in the supply chain;
- Packaging of products, warehousing and materials handling;
- Design and management of distribution networks;
- Freight transport systems;
- Reverse logistics;
- Information systems for logistics;
- Organisation and control of logistics systems;
- Sustainability and green logistics;
- Supply chain risk management and eco-resilience;
- Health care supply chain

Guest Editors

Prof. Dr. Fernanda Strozzi

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
