

## Special Issue

# Social Innovations in the Energy Transition

### Message from the Guest Editors

In energy research, attention into the social and behavioral aspects of energy systems is often lacking. It is conducted separately from technical research, or it is only applied in a late stage of technological development. Moreover, novel energy technologies are often not, or are poorly, accepted, and potential users have difficulties to adapt their behavior when this is required for adoption and optimal use. In addition, research shows that institutions often hinder the development and diffusion of energy innovations.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
