

Special Issue

Social Sustainability and Social Learning

Message from the Guest Editor

This Special Issue welcomes submissions building on a cross-fertilization of social sustainability and social learning in the fields of natural resource management, wildlife conservation, and protected area governance. The main objective is to document concrete examples of social learning and social sustainability and showcase how social learning can prove instrumental for fostering social sustainability, or how social learning can be reflected in examples of social sustainability. The emphasis should be on –but is not necessarily restricted to–the dynamic and constructive character of stakeholder engagement, on identifying and addressing positive and negative feedback loops, and on novel ways of dealing with complexity and uncertainty.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
