

Special Issue

Social Businesses and Social Entrepreneurship in the Face of Sustainable Development Challenges

Message from the Guest Editors

Social business and social entrepreneurship are increasingly important for economic development policies because they create social and economic values. From Yunus Centre Cantabria (Spain), we are delighted to announce this Special Issue, with the purpose of promoting research on the current challenges and opportunities for social business and social entrepreneurship in the face of the Agenda 2030. Papers submitted to this Special Issue should cover topics including the characterization of social entrepreneurs, measurement of social business impact, their contribution to SDGs achievements, etc. General topics related to social businesses and social entrepreneurship are welcomed as well. We are equally open to conceptual papers and empirical studies around this topic.
