

Special Issue

Sustainability of Socio-Ecological Paradigms in the Marine Environment

Message from the Guest Editors

This Special Issue aims to propose a collection of studies that combine the aforementioned concepts, including methodologies and/or case studies on the following topics: - assessment of sustainable marine developments and activities, including quantification of potential environmental, and socio-economic effects; - investigation of the interrelationships between social and ecological factors within ecosystem-based assessments; - the efficiency of protective measures such as mitigation or compensation measures; - analysis of international or national marine policies and their contribution towards reaching or preventing reaching the aim of sustainable development; - recommendations to improve on current processes and activities and the potential to lead to an increase the sustainability of our marine environment; - how bioremediation and blue carbon can be used into the assessment of sustainability of marine activities.

Guest Editors

Dr. Maria Amélia V. C. Araújo

Dr. Jemma-Anne Lonsdale

Dr. Elisa Capuzzo

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
