

Special Issue

Sustainability of Socio-Ecological Paradigms in the Marine Environment

Message from the Guest Editors

This Special Issue aims to propose a collection of studies that combine the aforementioned concepts, including methodologies and/or case studies on the following topics: - assessment of sustainable marine developments and activities, including quantification of potential environmental, and socio-economic effects; - investigation of the interrelationships between social and ecological factors within ecosystem-based assessments; - the efficiency of protective measures such as mitigation or compensation measures; - analysis of international or national marine policies and their contribution towards reaching or preventing reaching the aim of sustainable development; - recommendations to improve on current processes and activities and the potential to lead to an increase the sustainability of our marine environment; - how bioremediation and blue carbon can be used into the assessment of sustainability of marine activities.

Guest Editors

Dr. Maria Amélia V. C. Araújo

Dr. Jemma-Anne Lonsdale

Dr. Elisa Capuzzo

Dr. Adrian Judd

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
