

Special Issue

Socio-Ecological Systems Sustainability

Message from the Guest Editors

The present Special Issue will focus on socioecological systems sustainability.

In order to address the sustainability of socioecological systems (SES), which can be defined as integrated systems of ecosystems and human society with reciprocal feedback and interdependence, a holistic approach seems to be required. Unsustainable trends in the evolution of these social and ecological systems seem to have increased awareness about the need to move faster toward the implementation of more sustainable approaches. Despite this, the real application and acceptance of sustainable policies in socioecological systems is quite far from what is required. Several barriers and difficulties explain this gap between knowledge and action. The major obstacles are related to the complex nature of socioecological systems, the lack of adequate approaches and tools to understand, assess, and communicate the best options for more sustainable systems and to share visions among policy makers, stakeholders and society, regarding key sustainability issues...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
