

Special Issue

The Importance of Sociology of Education for a Sustainable Future

Message from the Guest Editors

Sustainable development is a critical concept in the present, and for the future, of humanity, for which Sociology can provide further, new and valuable contributions. This Special Issue of *Sustainability*, “The Importance of Sociology of Education for a Sustainable Future”, aims to focus on the contributions that Sociology of Education, in a broad sense (encompassing the most diverse formal, non-formal and informal processes of education, instruction, schooling and/or socialisation) can provide in the analysis of sustainable development, in different contexts and audiences. So as to fulfil this ambition, we invite authors to submit contributions in the form of thorough original manuscripts (such as research papers, reviews, theoretical papers, essays, opinions or reasoned comments), within a sociological approach, but respecting its paradigmatic plurality that does not favour any particular theory, foster heuristic ability and the contribution of Sociology to a better understanding of these sustainability future processes.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
