

## Special Issue

# Solar Power System and Sustainability

### Message from the Guest Editors

This Special Issue will support researchers, developers, and decision-makers by providing a comprehensive platform to gather the most recent studies on the following topics:

- Solar resources assessment;
- Atmospheric turbidity and its impact on solar collectors;
- Solar thermal collectors;
- Hybrid thermal-photovoltaic collectors;
- Solar photovoltaics;
- Solar heating and cooling;
- The optical performance of solar collectors;
- Solar receivers for low- and high-temperature applications;
- Thermal and thermo-chemical energy storage for solar energy systems;
- Solar fuels;
- Solar chemo-chemical processes;
- Solar water desalination and treatment;
- Solar industrial processes and hybrid systems;
- Integration of solar energy into mining processes;
- Economic assessment of solar energy conversion systems;
- Environmental assessment of solar energy conversion systems;
- Social studies of solar energy conversion systems;
- Solar energy and sustainable development.

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
