

Special Issue

Solutions to Sustainable Coastal Management

Message from the Guest Editors

Coastal management is dedicated to exploring the technical, applied ecological, legal, political, social, and policy issues related to the use of coastal and ocean resources and environments on a global scale. The Special Issue invites timely information on management tools and techniques, as well as recent results of research and analysis that directly influence coastal management and policy. The issue welcomes submissions on any sustainable coastal management research covering the following topics but not limited to:

- Coastal processes;
- Effects of model stability on sustainability;
- Definition and evaluation of sustainability indices in complex systems;
- Evaluation of the impact of global events on the sustainability of subsystems;
- Wave modeling;
- Sustainable development indicators and indices;
- Waste management;
- Integrated management of ocean and coastal areas;
- Coastal protection policies;
- Responses to accelerated sea level rise;
- Public access;
- Waterfront redevelopment;
- Public education and participation;
- Port management;
- Estuarine management;
- Marine protected areas.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
