

## Special Issue

# Sustainable Spatial Planning and Landscape Management

### Message from the Guest Editors

Protection, restoration, and promotion of sustainable uses in terrestrial ecosystems form one of the 17 goals that the United Nations have set on their global agenda for Sustainable Development. This forms a broad framework for research and practice in the field of spatial planning and landscape management. The Special Issue on sustainable spatial planning and landscape management integrates two major strands of land use planning and management. This Special Issue seeks papers in the fields of sustainable spatial (land use) planning, ecosystem services, and landscape governance, management, and conservation. Ideally, papers will provide a strong theoretical and methodological foundation and will present empirical results linking these fields. Policy-oriented papers are especially welcome, as are papers connecting social or natural sciences research results with planning approaches, strategies, and instruments/tools, in inter- or transdisciplinary ways.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
