

Special Issue

A New Outlook for Sustainable Urban Development: Focus on Resilient Smart Cities

Message from the Guest Editors

This Special Issue aims to provide a new outlook regarding (mathematical and/or conceptual) models, methods, innovative technologies, and cutting-edge implementations of smart city services, including concrete applications such as monitoring systems based on sensor/drone/satellite data or data-intensive urban platforms, methodological approaches such as analysis and assessment methods, and participatory and decision support approaches. We seek interdisciplinary papers considering both resilience and sustainability as inseparable aspects of urban development and other papers investigating how sustainable urban development could increase the resilience of smart cities. Experience-based papers addressing solutions for increasing preparedness for climate change and technological hazards are also welcome, as well as comprehensive literature reviews and surveys regarding smart city resilience and sustainability.

Guest Editors

Dr. Antonio De Nicola

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
