

Special Issue

Sustainable Technology and Elderly Life

Message from the Guest Editors

In this Special Issue, to be published in *Sustainability*, we want to provide a forum that collects current proposals that address these challenges, and to aspire to a future where healthy ageing with sustainable technology is possible. *Sustainability* is an international open access journal that provides an advanced forum for research findings in areas related to sustainability and sustainable development. This Special Issue aims to collect contributions to cover the research gaps in sustainable technology for elderly life, providing a reference resource to the scientific community working in this area. Research papers, concept papers, communications, comprehensive reviews and empirical applications are welcome to submit to this special Issue cause.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
