Special Issue

Sustainability Issues in Transport Infrastructure

Message from the Guest Editor

Efficient transport cannot exist without resilient infrastructure. Going further, sustainable transport cannot exist without sustainable infrastructure. Some solutions in design and construction of infrastructure allow reducing adverse effects of transport on environment. Simultaneously, infrastructure should be durable and recyclable. This Special Issue aims to collect solutions which contribute to transport infrastructure being more durable and less inconvenient for the environment.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
