

Special Issue

Sustainability in Conservation Biology

Message from the Guest Editors

Among the different socio-economic, scientific and integrated approaches toward a sustainable development, preservation and management of biodiversity is one of the less considered in scientific journals devoted to a broad readership. With this Special Issue, we want to provide an updated picture of the current challenges involving conservation biology, management and sustainability. This Special Issue will comprise papers covering a wide range of aspects related to wildlife conservation and sustainability. In particular, we would like to highlight papers that cover successful histories in conservation that directly benefit local human populations. Papers addressing the positive impact of the establishment of protected areas, a reinforcement or a reintroduction of an endangered population, or some aspects of environmental education are especially welcome. More details at: https://www.mdpi.com/journal/sustainability/special_issues/Sus_conservation_biology

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
